Why OHSAS Certification...?

Heritage

Our history and the expertise of our people sets us apart from other testing and certification organizations. OHSAS Certification has always been at the vanguard of the testing and certification industry, working with all types of organization to help them develop and deliver compliant standard and to prove their product/management quality.

Integrity

GICVS Certification can ensure that the benefits of certification meet your expectations through analysis of international standards, as well as an industrialist or organizations own requirements. We are familiar with the market access requirements of virtually every country in the world.

We help thousands of organizations to open new markets, maximize the potential of existing markets and manage risk, thereby making them more successful and allowing them to make a real difference to their business and their customers by giving value added certification services.

Our core philosophy is teamwork

We work with our clients to help them reach their objectives by providing technical judgments and physical analysis of industry, management system and its processes, at all stages of the certification cycle. We also develop quality standards for system and issue certification that covers such areas as quality, fairness and customer service.

Independence

One of the key strengths of GICVS is our independence. We are not industry or shareholders, which means that we can be totally objective in our certification services. This gives our assessments more authority than those of an organization that has a vested interest in promoting its members.

Quality policy

We the employee of OHSAS shall strive to surge ahead in certification, Registration, Validation and testing services and other quality and safety related fields through a commitment to continual improvement in the quality of our services, both in customer satisfaction and in our quality management system.

Business ethics

We shall not disclose any information while we are in possession of information relevant to the Quality and operations of our clients, which has not been publicly disclosed and shall not pass such information to other parties unless prior written approval is obtained.

Management

OHSAS comprises of a pool of experienced and competence Trainers to provide the most up to date information on the standard requirements and the certification processes. All personnel have undergone the qualifying processes whereby he / she is evaluated on his / her capability on the job provided to the client.

Quality Objective

- ✓ Treat our customers with dignity, courtesy and respect.
- ✓ Acknowledge applications for certification within 7 days of receipt.
- ✓ Use only competent personnel to carry out audit activities.
- ✓ Conduct certification and surveillance audits as per the contract.
- ✓ Acknowledge any compliant received within 7 days and ensure that appropriate correction and corrective actions are taken as a result.
- ✓ Provide timely information on the audit and certification process and about certification status.
- ✓ Keep client information confidential.
- ✓ Give clients due notice of any change to the requirements for certification.
- ✓ Upon request correctly state the status of the clients' management system.

Our Values

- Impartiality
- Competence
- Responsibility
- Openness
- Confidentiality
- Responsiveness to complaints
